COMPANY PROFILE COVER LETTER

Dear Valued Clients, Partners & Business Associates,

We are pleased to present the Company Profile of AL AIN CONTRACTING COMPANY, a Saudi-based contracting and service company committed to providing reliable, professional, and cost-effective solutions to clients across the Kingdom of Saudi Arabia.

Our company specializes in Manpower Rental, Equipment Rental, Cable Pulling, Fencing & Gates, and General Contracting Services. We are dedicated to supporting our clients with skilled manpower, suitable equipment, experienced supervision, and efficient project execution while maintaining high standards of quality, safety, and professionalism.

At AL AIN CONTRACTING COMPANY, we understand that successful project delivery requires more than manpower and equipment. It requires commitment, coordination, technical capability, timely execution, and a strong focus on client requirements. Our approach is therefore based on building long-term relationships through dependable services and consistent performance.

We are prepared to work with contractors, subcontractors, industrial companies, facility operators, and project owners by providing flexible solutions tailored to individual project requirements.

Our team is committed to delivering every assignment with professionalism, safety awareness, quality workmanship, and timely completion. We continuously strive to improve our services and establish ourselves as a trusted and dependable contracting partner in the Saudi market.

We sincerely appreciate your interest in AL AIN CONTRACTING COMPANY and look forward to the opportunity to work with your esteemed organization. We believe that our capabilities, commitment, and service-oriented approach can contribute positively to the successful execution of your projects.

Thank you for considering AL AIN CONTRACTING COMPANY as your trusted business partner.

01 Executive Summary

A practical contracting partner focused on manpower, equipment and site execution support.

Al Ain Contracting Company is an owner-led Saudi contracting business based in Al Jubail. The company is positioned to support industrial, infrastructure, electrical and civil project environments through rental manpower, construction equipment, cable pulling and installation support, fencing works and defined general contracting packages.

Our delivery model is built around responsive mobilization, disciplined site coordination, practical resource planning and clear documentation. Depending on the client requirement, services can be structured as manpower supply, equipment rental, task-based work packages, or coordinated combinations of people and equipment.

SERVICE PLATFORM

Rental Manpower	Skilled, semi-skilled & general manpower supply.
Equipment Rental	Reliable construction & industrial equipment.
Cable Pulling	MV/LV/EHV cable pulling, laying & installation support.
Fence & Gates	Supply and installation of fencing, gates & related works
General Contracting	Civil, electrical, infrastructure & maintenance works.

CLIENT VALUE

Reliable Manpower & Resources

Competitive & Cost-Effective Solutions

Quality-Focused Execution

Timely Project Delivery

Experienced Site Teams

Flexible & Scalable Support

Safety & Compliance

Single-Point Contracting Solution

Our approach

- Respond quickly to defined project and manpower requirements.
- Coordinate people, equipment and work fronts as one practical delivery package.
- Maintain clear scope boundaries and measurable work records.
- Adapt deployment to project duration, work-front readiness and client instructions.
- Build long-term relationships through dependable communication and disciplined execution.

03 Vision, Mission & Values

A simple operating philosophy built for project reliability.

ELEMENT	STATEMENT
VISION	To become a dependable contracting and site-support partner recognized for responsiveness, disciplined execution and practical solutions.
MISSION	To provide capable manpower, suitable equipment and organized work-package execution that helps clients maintain safe, productive and well-coordinated project operations.
SAFETY	Protect people, equipment and the work environment through planned and disciplined site practices.
QUALITY	Deliver defined work packages in accordance with approved scope, drawings, specifications and inspection requirements.
RELIABILITY	Respond, mobilize and communicate with consistency.
INTEGRITY	Maintain transparent scope, commercial and documentation practices.

04 Integrated Service Portfolio

Five service lines that can be delivered independently or as coordinated project support.

01

Rental Manpower

General, skilled, technical and site-support manpower arranged around defined project requirements.

02

Equipment Rental

Construction, material-handling and site-support equipment coordinated for project duration and utilization needs.

03

Cable Pulling & Installation

Cable handling, pulling, laying and related site support activities for electrical and infrastructure work.

04

Fence & Gate Works

Perimeter, mesh, chain-link, gate and associated site installation work packages.

05

General Contracting & Civil Support

Defined civil, site-preparation and construction-support packages using coordinated resources.

05 Rental Manpower Services

Structured manpower deployment for construction, industrial and project-support environments.

Al Safat Dist. 35514, AL JUBAIL
Kingdom of Saudi Arabia

+966 57 255 8291

info@alaincontracting.com

www.alaincontracting.com

Al Ain Contracting Company can organize manpower resources around defined project requirements, including general labor, skilled trades, technical support and site supervision. Deployment is planned around scope, quantity, duration, site access and client requirements.

Typical work activities

- General labor and site helpers for construction and support activities.
- Skilled trades and technicians according to project scope and client requirements.
- Electrical and cable-pulling crews for defined installation work packages.
- Supervisors and site-support personnel where required by the agreed scope.
- Project-based, monthly or duration-based manpower deployment.
- Mobilization coordination, attendance tracking and timesheet support.
- Replacement / additional resource coordination subject to availability and agreed requirements.

Execution / coordination workflow

- Receive manpower requirement and job description.
- Confirm quantity, trade, duration, location and site requirements.
- Coordinate available resources and mobilization schedule.
- Deploy personnel after required client/site approvals and access formalities.
- Maintain attendance and timesheet records as applicable.
- Review performance, extensions, demobilization or replacement requirements.

06 Equipment Rental Services

Practical equipment access for material handling, excavation and site-support requirements.

Al Safat Dist. 35514, AL JUBAIL
Kingdom of Saudi Arabia

+966 57 255 8291

info@alaincontracting.com

www.alaincontracting.com

Equipment rental is structured around project duration, utilization requirements and site conditions. The objective is to provide practical access to suitable machinery without unnecessary ownership burden.

Typical work activities

- Telehandlers and material-handling equipment.
- Excavators and earthmoving equipment.
- Loaders and site-support machinery.
- Selected small tools and project-support equipment, subject to availability.
- Equipment with operator where specifically included in the agreed rental scope.
- Short-term, monthly and project-duration rental arrangements.

Execution / coordination workflow

- Confirm equipment type, capacity, duration and site location.
- Verify access, working conditions and delivery requirements.
- Coordinate mobilization / delivery and off-hire arrangements.
- Maintain agreed rental period and usage records.
- Coordinate maintenance or replacement requirements as applicable to the rental arrangement.

07 Cable Pulling & Installation Support

Controlled cable-handling and installation support for electrical and infrastructure projects.

Our cable-pulling support model can combine manpower, cable-handling coordination and site equipment according to the approved method statement, route conditions and project requirements. The emphasis is on controlled handling, safe pulling practices, organized work fronts and clear progress records.

Typical work activities

- Cable drum receiving, positioning and handling support.
- Route and work-front preparation support.
- Cable pulling and laying using suitable manpower and equipment.
- Cable tray, trench and duct-route installation support.
- Roller / guide arrangement and controlled cable handling.
- Pulling coordination around approved routes and work-front constraints.
- Cable end identification and organized work-area housekeeping.
- Support for measured progress reporting and quantity records.
- Coordination with civil, electrical and other interfacing teams.

Execution / coordination workflow

- Review approved drawings / route information and work requirements.
- Confirm cable type, drum information, route readiness and access.
- Prepare pulling crew, tools, handling equipment and work area.
- Position drums and establish controlled pulling arrangement.
- Execute pulling / laying in accordance with approved method and site requirements.
- Inspect completed route, protect cable ends and record progress.
- Submit required daily records, quantities and supporting documentation.

08 Fence & Gate Works

Perimeter protection and access-control work packages for construction and industrial sites.

Al Safat Dist. 35514, AL JUBAIL
Kingdom of Saudi Arabia

+966 57 255 8291

info@alaincontracting.com

www.alaincontracting.com

Fence work can be delivered as a dedicated work package or as part of a broader civil/general contracting scope. Activities are coordinated around approved layouts, site access, material availability and required installation standards.

Typical work activities

- Temporary and permanent perimeter fencing support.
- Chain-link, mesh and industrial fence installation support.
- Fence posts, panels, supports and fixing activities.
- Gate installation support for pedestrian and vehicle access.
- Setting-out, alignment and fixing work.
- Minor site preparation and concrete-related support for posts where included in scope.
- Fence repair, modification, relocation and removal support.
- Coordination of material handling, manpower and installation work fronts.

Execution / coordination workflow

- Confirm approved layout, fence line and access points before installation.
- Coordinate material delivery and storage.
- Establish safe work area and maintain housekeeping.
- Check alignment, spacing and fixing as required by approved drawings/specifications.
- Coordinate gates and interfaces with roads, access routes and other site facilities.

09 General Contracting & Civil Support

Defined work packages supported by coordinated manpower, equipment and supervision.

Al Safat Dist. 35514, AL JUBAIL
Kingdom of Saudi Arabia

+966 57 255 8291

info@alaincontracting.com

www.alaincontracting.com

Our general contracting capability is designed for defined site packages that require coordinated manpower, supervision, tools and equipment. Work is undertaken against approved scope, drawings, specifications and client instructions.

Typical work activities

- Site preparation, clearing and grading support.
- Excavation and earthwork assistance.
- Backfilling, leveling and compaction support where included in scope.
- Concrete and civil construction support.
- General construction labor and equipment packages.
- Facility / site maintenance support packages where agreed.
- Material handling and logistics support within defined work areas.
- Subcontracting and task-based execution against approved drawings, specifications and instructions.

Execution / coordination workflow

- Confirm approved scope, drawings, quantities and work-front readiness.
- Plan manpower, equipment, tools and supervision.
- Mobilize resources and establish work area.
- Execute defined package with daily progress monitoring.
- Coordinate inspections, corrections and closeout.
- Complete measurements, demobilization and documentation.

10 Project Execution Methodology

A repeatable workflow from requirement to closeout.

STEP	DELIVERY ACTION
01 — Requirement Review	Understand scope, location, quantities, duration, manpower/equipment needs and site constraints.
02 — Technical / Commercial Review	Confirm deliverables, exclusions, interfaces, schedule expectations and commercial basis.
03 — Resource Planning	Plan manpower, equipment, tools, supervision, transport and mobilization requirements.
04 — Mobilization	Coordinate access, delivery, site induction, work-front readiness and deployment.
05 — Execution	Perform the agreed work package under applicable site safety and quality requirements.
06 — Progress Control	Track attendance, quantities, daily progress, equipment usage and site instructions as applicable.
07 — Inspection / Handover	Complete punch items, documentation and work-front closeout.
08 — Demobilization	Release manpower/equipment and complete commercial/documentation closeout.

11 HSE, Quality & Documentation

Safety, quality and records are treated as part of delivery—not an afterthought.

HSE focus

- Site induction and compliance with client / project HSE requirements.
- Appropriate PPE and work-area controls.
- Equipment and work-front checks before starting activities.
- Housekeeping and controlled material / cable handling.
- Safe access, lifting and material-handling practices.
- Stop-and-escalate approach for unsafe or unclear work conditions.

Quality focus

- Work against approved scope, drawings and specifications.
- Pre-start review of work-front readiness and interfaces.
- Inspection and correction of visible workmanship issues.
- Controlled quantity and progress records.
- Punch-list closeout and handover support.

Typical project records

- Daily Progress Reports (DPRs).
- Manpower attendance / timesheets.
- Equipment deployment and rental records.
- Material / delivery documentation where applicable.
- Work quantities and measurement sheets.
- Site instructions, approvals and correspondence as applicable.

12 Project Controls & Commercial Support

Simple controls that help clients and contractors maintain visibility.

CONTROL AREA	PRACTICAL OUTPUT
Manpower	Trade / quantity / attendance / timesheet tracking as agreed.
Equipment	Equipment type / rental period / deployment and off-hire tracking.
Progress	Daily work records, quantities, work-front status and outstanding items.
Commercial	Clear scope, agreed unit/rental basis, measurable quantities and supporting records.
Closeout	Punch items, final quantities, demobilization and supporting documentation.

Commercial engagement models

- Manpower on agreed daily / monthly / project basis.
- Equipment on agreed hourly / daily / monthly / project-duration basis, as applicable.
- Lump-sum work packages against defined scope and deliverables.
- Unit-rate work based on measurable quantities where appropriate.
- Combined manpower + equipment + execution packages for defined site activities.

13 Project Environments We Can Support

Our service model is suitable for a range of project and operating environments.

ENVIRONMENT	TYPICAL APPLICATION
Industrial & Manufacturing	Plant support, maintenance assistance, material handling, fencing and defined construction packages.
Infrastructure	Cable routes, site development, fencing, civil support and resource deployment.
Electrical Projects	Cable pulling, installation support, manpower and equipment coordination.
Construction Sites	General labor, skilled manpower, equipment rental and civil work packages.
Warehousing & Logistics	Material handling, equipment support and site manpower.
Commercial / Facility Projects	Fencing, general site works, manpower and equipment support.

The exact services, manpower categories, equipment types and execution responsibilities are always subject to the approved project scope, client requirements, availability and applicable site procedures.
